FEATURES

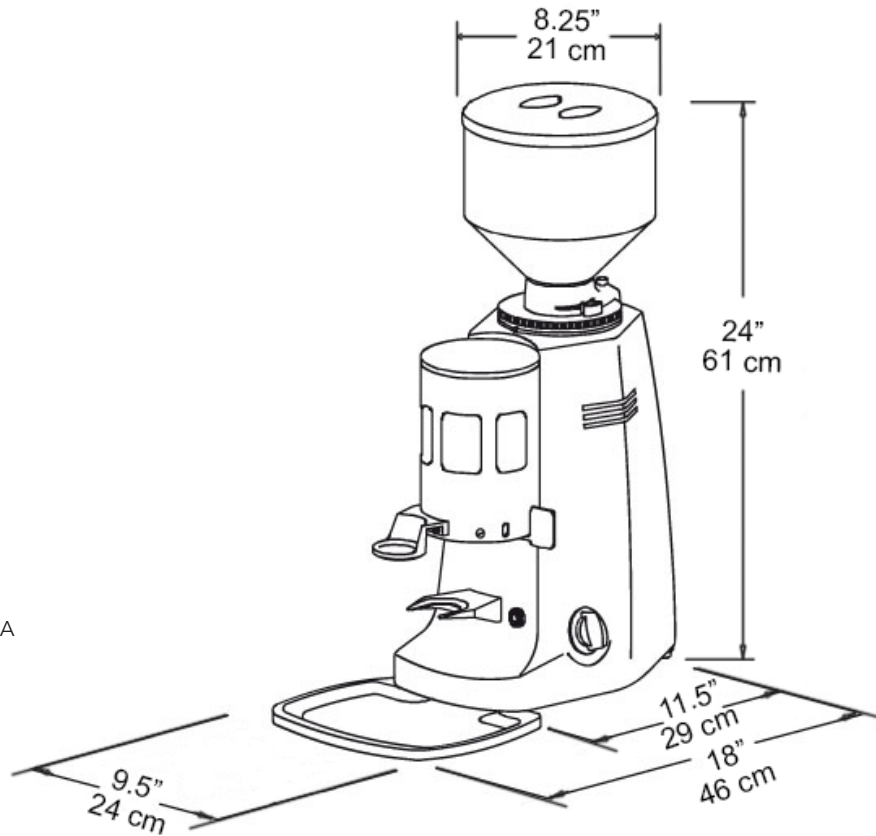

- Grinder-Dosers with stepless micrometrical grinding adjustment. Restrictive collar gives the operator infinite grind settings with a simple twist.
- VGT offers a timer version: set the timer to start the grind, machine turns off automatically after time is up. Timer can also be stopped manually. 1 minute maximum grind.
- VGA and VGHDA offer automatic versions: doser chute is always kept full, ready for dispensing. Auto starts every 12 doses, the grinder stops when the chute is full.
- Direct drive, 1600 rpm motor.
- Heavy duty cast aluminum body.
- Overheating safety protection.
- VGT and VGA have 64mm flat precision stainless steel burrs, and grind at the rate of 2.5 g / second.
- VGHDA have 83mm flat precision stainless steel burrs, and grind at the rate of 4.2 g / second.
- Dose adjustment: 5.5g - 9g.
- Quiet running - less than 81 dB.
- Shot counter on doser indicates the number of cups of espresso that have been served.
